

Medicover

In line report, reiterated targets

- -1%/0% adj. EBITDA vs ABGSCe/Infront cons in Q2
- Cons estimates likely unchanged
- Trading at 10.2x '26e EV/EBITDA

Q2 results: In line with expectations

Medicover reported a second quarter in line with cons. Q2 sales were EUR 640m (0% vs ABGSCe, 0% vs cons). Total organic sales growth in the quarter was +12% (ABGSCe +10%). Adj. EBITDA was 109m (-1% vs. ABGSCe, 0% vs. cons), for a margin of 17.1% (ABGSCe 17.3%, cons 17.1%), up 20bps y-o-y. Total NRI in Q2 was EUR -2m (ABGSCe EUR -4m, cons EUR -4m). Healthcare Services had a slightly softer quarter, with organic growth decelerating to 12.2% from 15.6% a year earlier and the EBITDA margin slipping to 18.4% from 18.6%, as continued strength in India, which grew 23.1% (~40% LCCY), and Polish sports/wellness was offset by weaker hospitals in Poland and clinics in Romania. Diagnostic Services performed better, with organic growth of 10.9% and the EBITDA margin improving to 18.8% from 17.7%, supported by double digit FFS growth across key markets and a favourable shift toward more advanced testing. Overall, a solid report with strong organic growth, though margin expansion was smaller than in Q1 as HS offset gains in DS.

Outlook: Softer in Romania

Management reiterated the 2026-2028 targets (revenue >EUR 3.25bn, adj. organic EBITDA >EUR 600m, leverage ≤3.0x) and says it is "in line with plan" six months in. Leverage was 2.9x, flat vs Q1 and down from 3.1x at FY25, inside targets. India remains the growth engine (~40% in LCCY), with the two newest hospitals ramping and new specialised centres plus a 100-bed women's/children's hospital added. A negative is Romania. Medicover highlights post-coalition-collapse political instability, 10.7% inflation and a weaker labour market that are pressuring membership and FFS. Otherwise the outlook commentary is strategic; there is no new numerical H2 guidance.

Conclusion: trading at 10.2x EV/EBITDA '26e

Based on the Q2 deviation, we find little reason for cons. to move estimates at all. The stock has been up ~8% L3M and is trading at 10.2x-8.7x EV/EBITDA for '26e-'27e. Conference call at 09.30 CEST today. Link for audiocast [here](#).

Analyst Certification

We, ABGSC Healthcare Research, Anna Salamon and Sten Gustafsson, analyst(s) with ABG Sundal Collier ASA, ABG Sundal Collier Denmark, filial af ABG Sundal Collier ASA, Norge, ABG Sundal Collier AB and/or ABG Sundal Collier Limited (hereinafter collectively referred to as "ABG Sundal Collier"), and the author(s) of this report, certify that notwithstanding the existence of any such potential conflicts of interests referred to below, the views expressed in this report accurately reflect my/our personal view about the companies and securities covered in this report. I/We further certify that I/We has/have not been, nor am/are or will be, receiving direct or indirect compensation related to the specific recommendations or views contained in this report.

This report is produced by ABG Sundal Collier, which may cover companies either in accordance with legal requirements designed to promote the independence of investment research ("independent research") or as commissioned research. Commissioned research is paid for by the subject company. As such, commissioned research is deemed to constitute an acceptable minor non-monetary benefit (i.e., not investment research) as defined in MiFID II.

Analyst valuation methods

ABG Sundal Collier analysts may publish valuation ranges for stocks covered under Company Sponsored Research. These valuation ranges rely on various valuation methods. One of the most frequently used methods is the valuation of a company by calculation of that company's discounted cash flow (DCF). Another valuation method is the analysis of a company's return on capital employed relative to its cost of capital. Finally, the analysts may analyse various valuation multiples (e.g. the P/E multiples and the EV/EBITDA multiples) relative to global industry peers. In special cases, particularly for property companies and investment companies, the ratio of price to net asset value is considered. Valuation ranges may be changed when earnings and cash flow forecasts are changed. They may also be changed when the underlying value of a company's assets changes (in the cases of investment companies, property companies or insurance companies) or when factors impacting the required rate of return change.

Expected updates

ABGSC has no fixed schedule for updating its research reports. Unless expressly stated otherwise, ABGSC expects (but does not undertake) to issue updates when considered necessary by the research department, for example following the publication of new figures or forecasts by a company or in the event of any material news on a company or its industry.

Important Company Specific Disclosure

The following disclosures relate to the relationship between ABG Sundal Collier and its affiliates and the companies covered by ABG Sundal Collier referred to in this research report.

Unless disclosed in this section, ABG Sundal Collier has no required regulatory disclosures to make in relation to an ownership position for the analyst(s) and members of the analyst's household, ownership by ABG Sundal Collier, ownership in ABG Sundal Collier by the company(ies) to whom the report(s) refer(s) to, market making, managed or co-managed public offerings, compensation for provision of certain services, directorship of the analyst, or a member of the analyst's household, or in relation to any contractual obligations to the issuance of this research report.

ABG Sundal Collier has undertaken a contractual obligation to issue this report and receives predetermined compensation from the company covered in this report.

ABG Sundal Collier is not aware of any other actual, material conflicts of interest of the analyst or ABG Sundal Collier of which the analyst knows or has reason to know at the time of the publication of this report.

All prices are as of market close on 21 July, 2026 unless otherwise noted.
